

Solid Color Cotton Thread

Signature® Machine Quilting 100% mercerized long-staple cotton thread is the perfect choice for those purists preferring cotton through and through. The three-ply, long-staple fiber construction, combined with the mercerization and finishing processes this fiber passes through, all contribute to the superior strength, luster, and low lint properties of this high quality thread. Whether you're using free motion techniques, high speed multi-directional designs, or just doing general sewing, you'll enjoy excellent sewability on both longarm quilting and home sewing machines.
